

SEYMOUR DAILY REPUBLICAN.

VOLUME XXIX NO. 155

SEYMOUR, INDIANA, THURSDAY, JUNE 9, 1910.

PRICE TWO CENTS

TIME EXPIRED FOR FINAL SETTLEMENT

Walsh Properties to be Sold at Auction, According to Decree of Federal Court.

DATE OF SALE NOT DESIGNATED

Much Speculation in Railroad Circles As to What Disposition Will Be Made of the Road.

The ten days, which were allowed by Judge A. B. Anderson to the Southern Indiana Railroad Company for the payment of the sum of \$3,547,115.51 due the trustees of the general mortgage bonds, have expired and there is much speculation as to what disposition will be made of the property. According to the decree of the court, the road will be sold at auction, although the date of the sale has not yet been designated. It is believed, however, that the sale will be made within a short time.

The indebtedness of the Southern Indiana and the Chicago Southern is very heavy. The amount of principal and interest on the first mortgage bonds of the Southern Indiana road is \$7,537,000. This was due February 1, 1909. The principal and interest on second mortgage bonds is \$3,547,115, which is also due. The amount due on the collateral bonds of the Chicago Southern railroad is \$3,700,890. This was due July 1, 1907.

Since it became known that the road would probably be sold, there have been a number of reports as to what company would buy it. It is rumored that the Big Four would like to own the road, in order that they may have a direct line into the Bedford stone district. It is said that if they succeed in getting the road, they will expend large sums of money in improving the track and roadbed, and will make it one of the best lines from point of construction in Indiana.

It was rumored here Wednesday that the Baltimore & Ohio Southwestern had practically closed negotiations for the S. I. properties, but this report is believed to be untrue. It has been reported at various times that the B. & O. would like to have the Southern Indiana road, as it could be operated to a good advantage in connection with the main line, which passes through this city. By the purchase of the Chicago Southern, a part of the Walsh properties, the B. & O. would have a direct line from Chicago to Louisville, which, it is said, they have desired to operate for some time. Another report has it that the Pennsylvania Company has an eye on the Walsh roads, and that they will be one of the bidders when the property is offered at auction. It is believed that either the B. & O. S-W. or the Pennsylvania companies would find the Southern Indiana a profitable investment, as that road could be operated in connection with the main lines, which meet with the S. I. in this city.

While it is the opinion of some that the Southern Indiana and Chicago Southern railroads will be purchased by a competing company, others are of the opinion that the bondholders and stockholders will buy in the property when it is sold according to the decree of the court. It is said that the holders of the bonds are now making arrangements to file a bid, and that they will endeavor to retain both the roads. If this is done, the property will be improved and placed in the

best of condition, which will require the expenditure of much money.

The traffic on the Southern Indiana road is now very heavy, and many extra trains are being run daily. The freight business into Terre Haute has been unusually large during the past few months, and the company has operated more trains than ever before. As soon as the road is sold, the entire line will probably undergo extensive repairs and, with additional equipment, which is required, the company will be able to handle the heavy business to a much better advantage.

Will See Aeroplanes.

Many Seymour people will go to Louisville June 18 and 19 to attend the Aviation Meet which is to be held under the auspices of the Louisville Times. The place of meeting is Churchill Downs, an ideal place for the aviators to make the start. Glen H. Curtiss, who recently flew from Albany to New York, 150 miles; Charles K. Hamilton, who has entered for the \$30,000 prize flight from New York to Chicago; C. J. Mars, who will also try for this handsome purse, Horace B. Wild who is to undertake a flight from Chicago to Louisville; and Carl Bates, another daring sky-pilot, will all be there. This is an opportunity for the people of Southern Indiana to see aeroplanes in action. The interest in this big event increases as the date of the meet draws closer.

Attend Church Picnic.

Rev. E. Eggers and family, Harry Lange, Albert Wilde, Albert Falke, Bert Kasting, Edna Droege, Stella Ahlbrand, Ben Hoffmire and Erbie Hoffmire were among those who went to Columbus to attend the picnic given by the various choirs of the German Lutheran church at that place Tuesday. The picnic was held at Perry's grove and there was an abundance of good music besides recitations, drills, games and a variety of amusements, refreshments, etc. The program was excellent, and those who went up from Seymour were well entertained and enjoyed the exercises to the fullest extent.

Motorman Wants Damages.

Claud Legate, a resident of Edinburg, and a former motorman for the Indianapolis, Columbus and Southern Traction Company, has filed suit in the Johnson Circuit court against the company, demanding damages. While on the front end of a car, May 29, 1909, he suffered an injury which was described at the time as a stroke of paralysis, but now he alleges that defective wiring caused a spark to be thrown into the car which brought on the stroke of paralysis, and wants damages on that account. Legate has a number of acquaintances in this city.

Attend Convention.

The lodges of the Pythian Sisters of the Fifteenth District, composed of Bartholomew, Johnson, Decatur and Shelby counties held their annual convention at Columbus Wednesday. Although Jackson county is not in that district a number of members of the local lodge were guests at the meeting. Those who attended were Mrs. A. M. Shatters, Mrs. George Bartlett, Mrs. L. L. Bartlett, Miss Minnie Hustedt, Miss Myrtle Morton, Mrs. Mary England, Mrs. Emma Beall, Mrs. Minnie Eudaly and Mr. and Mrs. George Heins. Mrs. Lena Wilson, of St. Louis, who is visiting friends here, also attended the meeting.

The condition of Mrs. Gray, who has been ill for several weeks, at the home of her daughter, Mrs. James Demaree, is reported to be very serious today.

LIGHT COMPANY INCORPORATED

Articles of Incorporation Are Filed for the Seymour Public Service Company.

CAPITAL STOCK, \$100,000.00

Franchise Will Be Read for the Third Time at Regular Meeting of Council This Evening.

The electric light company, which will erect a plant in this city during the summer, has been incorporated under the name of the "Seymour Public Service Company," with a capital stock of \$100,000. The directors of the new company, as named in the articles of incorporation, are: T. C. McReynolds and C. W. McReynolds, of Kokomo; W. W. Layton, of Covington, and C. E. Layton, of Seymour. T. C. McReynolds has been elected president of the company, W. W. Layton vice-president and C. E. Layton secretary and treasurer.

The franchise to the Seymour Public Service Company will be presented for third reading at the regular council meeting, this evening. It was first intended that the franchise should have been read two weeks ago, but was postponed because of the absence of the grantees. Mr. Layton, manager of the company, is in the city today and will be present at the session of the city council this evening. As soon as the franchise is passed, the indemnity bonds, for \$10,000, will be presented and the final contracts signed.

Mr. Layton stated this morning that the company desired to begin work on the plant as soon as possible. Immediately after the contracts are signed he will place the order for the poles and wiring, and said he thought the construction work of the system could be started by the latter part of next week. William Parsley, of Noblesville, has been employed as chief lineman, and will move here with his family as soon as he can find a suitable house. Mr. Layton will establish his office here next week, and will spend most of his time in this city so he can superintend the work of constructing the system. Mr. Layton will move here some time during the summer.

The officers of the new company have not yet decided where they will build their plant, but are contemplating erecting the building along the track of the Southern Indiana railroad. By locating their plant here they can have the advantage of a side-track from the main line, and can thus get the coal to their plant without the additional cost of transportation. The S. I. also gives a direct route into the Indiana coal fields, which is an inducement to any factory using a large amount of fuel.

A large amount of the machinery for the plant has already been selected and will probably be ordered tomorrow, so that there will be no delay when the plant is completed. The system which will be installed is the most modern and will be carefully installed by experienced workmen, so that the best results may be obtained.

COMMISSIONERS COURT.

Contract Awarded for Repairing the Thompson Bridge in Hamilton Township.

At the regular monthly session of the county commissioners bids were opened for the repair of the J. B. Thompson bridge in Hamilton township. Estimates were given on the work by four contractors, but the bid of Charles Rosenmeyer was the lowest and was accepted. He proposed to furnish the new lumber at \$3 per hundred, construct the concrete work for \$5.50 per cubic yard, and perform the other work as specified for \$325.

No other business of importance was considered at the meeting, except the allowing of the regular claims.

Fire at Hartsville.

A fire that started Wednesday afternoon in the A. M. McClintic drug store in Hartsville, destroyed more than a block and for a time threatened the entire town, entailing a loss of probably \$50,000. The drug store in which the fire started had been closed for a week, and the origin of the fire is not known. Among the buildings destroyed are the First National Bank, the Town Hall, three business rooms owned by Capt. J. F. Wright, a restaurant owned by Glenn Galbraith, a barber shop owned by Rolla Robbins a furniture store owned by J. J. Cummins, the general store and the Knights of Pythias hall belonging to J. T. Johnson, the residence of Robt. Lawrence and that of Mrs. Martha Powell. Hartsville has nothing but bucket brigade fire protection, and it was by this method that the fire was finally controlled.

BLOCK SYSTEM MAY BE INSTALLED

Arrangements for New Signal System May Be Made by B. & O. S-W. Officials in Short Time.

DELAYED IN MAKING CHANGE

Intended to Have System Installed by July 1, but Railroad Men Say That Cannot Be Done.

The officials of the Baltimore & Ohio Southwestern are figuring on installing a block system of signals along this division, but none of the particulars have been given out. It is said that the company intended to have the system in operation by July 1, but railroad men say that cannot now be done.

Rumor among the railroad men has been rife for the last few days in regard to the block system of signals. Some of them claim that the company intends to install the block signals along the road at a distance of every five miles, but this is not known to be a fact. It is known, though, that a block signal was unloaded near Washington this week, but no workmen have been sent there to erect it. Whether it is to be used as a demonstrator is not known.

A system of block signals would be costly, as this would entail the expense of hiring a number of operators, besides the installation of the signals. But it would probably be a saving to the railroad company in the long run, as it would be a much needed device for safety to trains. When the block signals are at a distance of five miles it almost precludes all possibility of a wreck.

It would be a great improvement on the B. & O. Southwestern if a good system were installed like is used on some of the best roads in the country now. And from the amount of talk that is going the rounds, it seems to be a certainty that the system is to be put in use.

With the block system many additional operators will be required, and as the company has been employing new telegraphers for the past several weeks, it is thought that the system will be installed in the near future.

Old Soldier Injured.

William Duckworth, of West Brown street, who suffered a stroke of paralysis several weeks ago, has improved some of late and has been able to walk about in the yard. Wednesday he fell at the door step and the back of his head struck on the brick walk. He has been suffering considerable pain in his head and back since, and has been very restless.

Presbyterian Sunday School.

The Children's Day exercises of the Presbyterian Sunday School will be held at the church Sunday morning at 10:30 o'clock. All members of the Sunday School are requested to meet in the Sunday School room at 10 o'clock. A special invitation is extended to the parents and friends to attend and hear the program. j11d

June Wedding.

The marriage of Miss Linnie Kiel, daughter of Mr. and Mrs. August Kiel, and Fred Mellenkamp, both of near Jonesville, will be solemnized Sunday.

Frank Seifres, of Crothersville, was in this city this morning on business.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Gentlemen!

You are invited to stop at our place and see our up-to-date line of all-wool goods for your spring and summer suits. Also gents' furnishing goods. We do all kinds of cleaning, pressing etc. Ladies' and gent's garments. A. Sciarras, Tailor and Haberdasher, 14 E. Second street.

Elected Superintendent.

Paul Van Riper, formerly of Hayden, has been elected superintendent of the Franklin Public school. He has been principal of the high school for three years, and his work has been highly commended.

Children's Day.

All who have part in the Children's Day program at the First Baptist church will meet at the church Friday afternoon at 2 o'clock for the final rehearsal. Let everyone who has part attend.

CONGRESS IS TO ADJOURN JULY 1

At Least That Is The Program
Now Mapped Out.

TO ADJUST CONTROVERSIES

The President Has Been Given the Assurance That the Present Plans Provide For an Agreement on All Measures in Controversy in Time to Permit the Lawmakers to Get to Their Homes Before July 4.

Washington, June 9.—With a prospect of an early agreement in conference on the railroad bill Republican leaders predict that congress will adjourn by July 1. President Taft expects congress to get away by that time, and he is making his arrangements accordingly. He has been assured that the present plans provide for an agreement on all measures in controversy in time to permit the lawmakers to get to their homes before July 4.

It is already apparent that the conferees on the railroad bill will have more trouble in reaching an agreement on a stock and bond provision than on any other section that is to be argued. The president insists upon the adoption of the principle embodied in Sections 16, 17 and 18 of the house bill, which give the interstate commerce commission authority over the issuance of stocks and bonds of all roads engaged in commerce between the states.

President Taft discussed this subject with Senators Aldrich, Elkins and Crane. He made it plain that he regarded the stock and bond sections of the house bill as highly important. He said that he was not wedded to the language of the house bill in this regard, but he did say that it was his wish that the government should be empowered to exercise supervision over the future issues of railroad securities. The house provisions relating to railroad securities is drastic. They give the interstate commerce commission close supervision over the issuance of all stocks and bonds.

An agreement has been practically reached by house and senate leaders that there shall be no controversy over the postal savings bank bill. The Gardner bill, which was agreed upon at the recent Republican caucus, will be passed before the house adjourns today. The plan now is for the senate to accept the house bill without sending the measure to conference. If this program is adhered to the measure should reach the president for approval early next week.

UNITED IN WEDLOCK

Viscount Maidstone and Miss Drexel, Who Were Married in London.

SOME PRESENTS

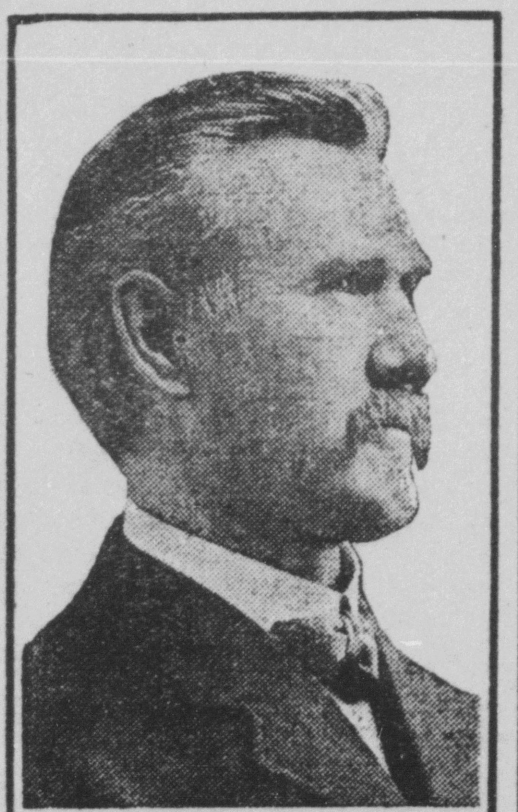

The Viscount Maidstone's Bride Receives Half Million Dollars' Worth.

London, June 9.—With the marriage of Miss Margaretta Drexel, daughter of Anthony J. Drexel, millionaire banker of Philadelphia and London, to Guy Montagu George Finch-Hatton, viscount Maidstone, another cofferful of American dollars found its way into the custody of the British nobility. The wedding took place in fashionable St. Margaret's church, Westminster. The bishop of London, assisted by Canon Hoersley Hansan and minor clergymen, officiated. The wedding presents are among the most numerous and costly ever seen in London, estimates of their cost running as high as \$500,000.

IOWA STANDPATTERS FIRMLY INTRENCHED

They Demonstrate Their Strength
In the Primaries.

Des Moines, Ia., June 9.—President Taft was indorsed by Iowa Republicans in the primary of Tuesday by the standpatters, who demonstrated their strength by renominating Governor Carroll over Warren Garst, the protégé of Senator Cummins, and controlling

GOVERNOR CARROLL.

six of the eleven districts. In the coming state convention the standpatters will control every committee of the convention, will indorse Carroll and his administration, President Taft, and will denounce the attempted dictation from senators in Washington as to Iowa elections. Senator Cummins spoke in the Eighth and Ninth districts and sought the defeat principally of Congressman Walter I. Smith of Council Bluffs, Charles Kennedy in the First district, and Judge Horace Tower in the Eighth. Every one of the standpatters against whom he spoke was nominated.

The six congressional districts in which the standpatters have controlled the state convention are the First, Second, Fifth, Sixth, Eighth and Ninth.

Named to Oppose Crumpacker.
Hammond, Ind., June 9.—The Democrats of the Tenth district in convention here nominated John B. Peterson of Crown Point as a candidate for congress against Edgar Dean Crumpacker, renominated by the Republicans at Lafayette a few weeks ago. The convention affirmed the Democratic state platform; indorsed the administration of Governor Marshall; drove the iron into the soul of Congressman Crumpacker on the tariff question; approved the public accounting law, and went on record in favor of a dollar-a-day pension law.

BALLOT BOXES GATHERED UP

Alleging That There Has Been Fraud in at Least 65 of the Polling Places in John Dalzell's District, the Pennsylvanian's Recent Opponent Has Secured an Order For a Recount of Saturday's Primary Ballots.

Pittsburg, June 9.—Alleging that he has discovered traces of fraud in at least 65 of the 171 polling districts of the Thirtieth congressional district, Dr. Robert J. Black, opponent of John Dalzell for the congressional nomination, filed a petition requesting that ballot-boxes from these districts be brought into court and opened, so that the vote may be recounted. The petition was granted and the county commissioners are already receiving the ballot-boxes. There is some dispute as to the time and place for recounting this vote. None of the boxes has yet been opened. Black, who has had a host of detectives working since the polls opened last Saturday, alleges that fraud in each of the sixty-five districts named was most open.

The claims of the Dalzell people have been steadily dropping, until it is now said that his total will show less than 200 majority by the official count, against a majority of 8,062 in 1908.

WILL TEST IT

Injunction Against Miners Shutting
Down the Pumps.

Danville, Ill., June 9.—Judge Wright in the federal court here issued a temporary restraining order against the members and officers of the United Mine Workers of America, prohibiting them from interfering with the present operations of a number of collieries in Jackson and Williamson counties, Illinois. Pending final court action the mines will start pumps and boilers with a force of men, all members of the mine workers' organization.

This action is to test the property rights of a coal operator and to have a federal judge define the lengths to which a labor organization may go in declaring a strike.

Temporary Order at Decatur.

Decatur, Ill., June 9.—Judge W. C. Johns in the circuit court here granted a temporary injunction against Local 781, United Mine Workers, restraining it from calling out engineers, pumpmen and mule drivers of the Decatur Coal company. The injunction was asked for on the ground that a walk-out would result in the ruin of the mine.

PRECEDENT BROKEN

Washington Playbills Carry the Name
of the White House.

Washington, June 9.—The White House, contrary to accepted precedents, has permitted the use of its name on posters advertising plays. "As You Like It" and "Twelfth Night" are to be produced June 17 and 18 on the White House grounds for the benefit of the Washington Playground association. The performances will be under the auspices of Mrs. Taft, who is greatly interested in the playground movement. The posters advertising the plays have been scattered about the city.

Many Still Missing.

Rome, June 9.—Thirty dead have been recovered from the earthquake ruins at Calitri and twenty persons are still missing.

SALE OF ALCOHOLIC DRINKS ON INCREASE

Brewers' Association Submits
Some Startling Figures

Washington, June 9.—The prohibition laws of the country have failed to prohibit and the consumption of beer and spirits is on the increase, according to statements made at the annual convention of the United States Brewers' association, in session here.

The brewers' association's reports declare that while the prohibition movement has been at high tide the sale of beer has increased by about 90,000,000 gallons. And the sale of spirits has leaped up 11,000,000 gallons. The increased amount of beer taken contained a little over 3,000,000 gallons of alcohol, while the increased amount of spirits that has been consumed contained nearly 6,000,000 gallons of alcohol. These figures are for the twelve months ending June 30, 1910. All these increases have been made in the face of the fact that 42,000,000 inhabitants of the United States are said to live in absolutely dry territory.

To Strengthen Option Movement.

Springfield, Ill., June 9.—Sixteen hundred delegates, representing nearly every voting precinct in Illinois, attended the state-wide county option convention here and took steps preliminary to the formation of a state organization to procure the nomination and election of members of the legislature pledged to county option legislation.

MADE COUNTERFEIT IN PENITENTIARY

Strange Case Has Come to
Light in Missouri.

Jefferson City, Mo., June 6.—The federal government has induced Governor Hadley to announce that he will pardon Lee J. Jaynes of Jackson county, who is serving a five-year term in Missouri penitentiary for forgery, so that he may be prosecuted for counterfeiting.

While serving his sentence Jaynes has been passing his spare time in making counterfeit dollars and half dollars. In some mysterious way he obtained babbitt metal, a quantity of lead, some bismuth, block tin and other material used by counterfeiters. He constructed molds of pieces of plaster of paris. The dies were found in his bunk.

Just how much of the "queer" Jaynes has made or how widely it has been circulated is not known, but the prison authorities got hold of a large number of the spurious coins. Jaynes passed them off on other convicts on holidays, when the inmates are given the freedom of the yard. He also exchanged counterfeit for bills with convicts who were about to be released.

A Fashion Chat on Pretty Waist Models.

Furnished by Pictorial Review,
853 Broadway, New York City.

The separate waist is needed more than ever now that the Spring and Summer are coming on. As soon as it becomes warm enough to discard the coat, handsome blouses will be worn with smart skirts. To be strictly fashionable these blouses should harmonize with the skirt in color. This does not necessarily mean that the entire blouse must be made of material to match, but it should have some tone or trimming on it to combine with the skirt.

Many waist models shown in the fine shops are trimmed with fine laces and embroideries. The yokes and sleeves are made of all-over lace of the most delicate fibre, and Irish crochet, cluny and nets in various meshes are still much used. Little plaited frills and ruffles are seen on most blouses made either of net or of the material from which the waist is made.

Pipings are judiciously used and embroidered motifs cover the entire fronts of the blouses. Almost every garment for Spring and Summer wear has embroidery in some form or other. The linen suits now displayed in the shops for the benefit of those who contemplate going South are simply massed with embroidered designs, not only in white, but in different colors. Dresses, shirt-waists, lingerie, belts, labots, hats, parasols, etc., all have embroidery whether in simple or elaborate designs. This season will, no doubt, be one of hand-work and blessed is she who is nimble with her fingers.

The sloping shoulder is a new and extremely smart feature. It gives a graceful, clinging line to the shoulders and fashionable women have already taken hold of it.

The round yoke is also a new feature which has been welcomed gladly, because it has a tendency to give a youthful appearance to the wearer. Sleeves are very elaborate, though some women prefer them plain. They are plain and semi-tight fitting at the top, puff out at the elbow, and are tight again at the wrist. Caps are also seen a good deal.

Braiding and cording are by no means out of style. One exquisite blouse of black chiffon cloth had a pointed girdle with shoulder-straps completely worked with black silk tubular cord. The design was simple and elegant.

Girdles, by the way, are worn with almost all the dressy blouses. They are made of soft silk and draped in different ways. Handsome buckles of jewels or of the same material shirred or corded are used.

PICTORIAL REVIEW MODEL NO. 3338 shows a very pretty blouse with two ornaments in front and one in back. The waist has a body lining and two seamed sleeves. It runs in sizes 32, 34, 36, 38 and 40 inches bust measure. Size 36 requires 5½ yards of 36-inch material.

A beautiful and modish waist is shown in **PICTORIAL REVIEW MODEL NO. 3380**. This waist affords great possibilities in the way of trimming, and the individuality of the maker need only to be put into use. For combination of materials it is excellent. It has three-quarter length sleeves with plaited sleeve-caps. Its sizes are 32, 34, 36, 38 and 40 inches bust measure, and a medium size requires 3 yards of 44-inch material.

The last waist for No. 3368 is excellent style for such materials as pongee, silk or linen. The embroidery design, No. 11332, price 25 cents, covers the front of waist and collar, and the sleeves also show a touch of it. It comes in sizes 32, 34, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 yards of 40-inch material.

The price of these models, including cutting and construction guides, is 15 cents each number.

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort. Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection WICK BLUE FLAME Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

Standard Oil Company
(Incorporated)

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

INTERVENTION THE ONLY WAY TO PEACE

Nicaraguans Apparently Determined to Fight It Out.

Bluefields, June 7.—President Madrid's answer to Estrada's appeal for peace was an order to the old government representative General Arias, to assemble added forces at Greytown for another assault on Bluefields. Estrada's reply consisted of instructions to Generals Mena and Chamorro, directing them to prepare for a movement against Greytown, the government base of supplies, and a campaign against Managua, on the Pacific coast. The developments verified the forecast made in these dispatches that peace is entirely impossible in Nicaragua unless some stronger power intervenes. Estrada has despaired of Washington's interference by this time while Madrid is banking on the hope that it will not occur.

According to dispatches received here from San Juan del Sur it appears that Madrid's coffers have been replenished by finances from Zelaya. Senor Cousen, Zelaya's brother-in-law, is on his way from Brussels to Managua, equipped, it is declared by Estrada spies, with plenty of money for another campaign against the insurgents, while it is asserted that President Davilla of Honduras has promised to provide Madrid with all the soldiers he needs. This assurance was conveyed to Madrid through General Lara, the Honduran nobleman now commander-in-chief of the government forces.

CHARGES OF FRAUD

Are to Be Brought Against John Dalzell in Primary Contest.

Philadelphia, June 6.—In the thirty-two congressional districts in Pennsylvania all the state Republicans except two were renominated after hot contests in half a dozen districts.

Incomplete returns indicate that Congressman Alfred D. Garner of Schuylkill county, a Cannonite, and William H. Graham have been defeated. John Dalzell, the authority on tariff, encountered a hard fight, being opposed in the Thirteenth district by former Mayor Black of McKeesport. The incomplete returns show a close contest, but Congressman Dalzell's election is conceded. Mayor Black announces that criminal proceedings charging fraud will be instituted against Dalzell. In the Twenty-eighth district former Congressman Sibley defeated Nelson P. Wheeler by a small majority. All the present seven Democrats were renominated and their election is assured.

Anthropologists Interested.

London, June 6.—A British expedition exploring the great Snow mountains of Dutch New Guinea, reports the discovery of a tribe of pygmies, averaging 51 inches in height, dwelling at an elevation of about 2,000 feet. It is believed they belong to the Megar race, which anthropologists generally believed did not exist there.

THE POLITICAL FIELD

Some Observations From Our Indianapolis Correspondent.

[Special Correspondence.]

Indianapolis, June 7.—There is unusual interest in a Cincinnati Enquirer poll of 1,500 representative Indiana leaders of both great political parties, which poll shows, or purports to show, the public trend in the state. The Enquirer asked, first, as to the opinion of the man addressed on the Beveridge strength in county and district. Seventy-five per cent of all the replies declared that Senator Beveridge is endorsed by county and district. The replies came from all parts of the state. When asked as to the prospect for the re-election of Senator Beveridge, 648 men said he would be returned. Others who expressed doubt gave as reason for that doubt the feeling that Senator Beveridge has shown himself to be out of harmony with the extreme high tariff men who line up with Senator Aldrich and Speaker Cannon, thereby incurring the possible displeasure of those powers. It was generally declared in the replies that the Democrats had added greatly to Senator Beveridge's chances of re-election by selecting a senatorial candidate in the person of John W. Kern, and by barring from the contest a large number of hard-fighting aspirants who might have stirred things in their respective districts. It was the general expression of the card-writers that Mr. Kern would not prove a strong candidate for the United States senate.

The returns from the postcard poll, as relates to the public view of the Payne tariff law, disclose the people in line with the Indiana state Republican platform of 1910 and with the progressives on the tariff question. Eleven hundred and eight men out of 1,500 say that the tariff law is not satisfactory to the people. Only 192 men say that it is satisfactory. In other words, Indiana voters are outspoken in saying that the law is not perfect. In this they stand with the progressives, and with President Taft, who, in an interview in McClure's magazine, declares that the bill was the best he could get under the conditions existing at the time it was made. In this the voters agree with practically all Indiana Republican leaders, who freely admit that the Payne law has inequalities as well as good features.

The executive committee of the Republican state central committee met yesterday to talk over the political situation with special reference to the splendid opportunity presented in Indiana this year for the winning of at least five and perhaps more additional Republican congressmen. As the districts have come forward with congressional candidates, harmoniously nominated on satisfactory platforms, and amid adjustments and love feasts of party workers, the conviction has grown among the Republican organization men that especial effort must be made to insure the return of an Indiana house delegation which shall be made up with a comfortable majority of Republicans. State Chairman Lee, who visited President Taft and National Chairman Hitchcock some time ago, went over the congressional possibilities with those party leaders, and found them intensely interested in his message of good cheer from Indiana. Since Chairman Lee's talk with the men at Washington, D. C., Republican conditions in several Indiana districts have been bettered materially. It was for the purpose of planning for an especially strong congressional campaign, and for thorough co-operation with the congressional campaign committee, and with the national committee, that the executive committee held its session Monday.

"All Indiana Republicans see the need for united activity to elect our congressional candidates," says State Chairman Lee. "President Taft very properly looks to Indiana to send to Washington next year a large Republican increase of house members. As president he desires to have back to him a Republican majority on which he can rely for progressive legislation such as he has suggested to the congress. Indiana ought to do her part in making the Republican congressional majority safe. We find that there is a general feeling throughout the state that several comfortably seated Indiana Democrats are going to be gently extracted from their congressional seats next spring, and that Republicans are to be substituted. There is no reason why Indiana Republicans should be represented by Democrats where Republicans are in the majority. The voters are alive to the situation. The call of the president for a Republican congress to carry forward progressive legislation will be answered adequately from Indiana. We are in a position to assure President Taft and National Chairman Hitchcock of large gains in Indiana for the Republican congressional majority."

Speaking of the exultant attitude of some Democrats in Indiana at this time, E. M. White, one of the best-known Republicans in the Eighth district, says: "It strikes most of us that it is better to give the workers the idea that a big fight is on, and that it will take hard work and fighting to win it. It is to be hoped that Republicans will not fall into the error of claiming too much at the outset of the campaign. It is to be hoped that there will be no over-confidence in the Republican camp, such as Thomas Taggart is inspiring on the Democratic side. Things are looking good for Republicans."

WALL STREET CALLS HALT IN RATE WAR

A Direct Appeal Will Be Made To the President.

Chicago, June 4.—Financial interests of the east, through George W. Perkins, have called a halt in the war between the railroads and shippers. After two days' effort here Mr. Perkins has induced the western railroad presidents to meet in conference with the shippers and endeavor to find some peaceful way out of the difficulty that threatens to involve and cripple the entire country.

He said that the attitude of the government in attacking the railroads is responsible for a rapidly falling market and the inability of the financial interests to place railroad securities. He made no secret of the fact that the banking interests east and west deprecate the attack by the government on the rights of railroads to make rates by agreement.

He said that the financial interests of the east felt that it is imperative that the government should withdraw its suit, as he believes it was instituted under a misapprehension of facts. None of the shippers appealed to could see how the government, having filed its injunction suit, could do otherwise than prosecute it to a final conclusion.

A direct appeal to President Taft is to be made by the twenty-five railroads comprised in the Western Trunk Line committee, when a committee consisting in part of presidents of railroads centering in Chicago will journey to Washington next week to confer with the chief executive of the nation regarding his hostile attitude toward the proposed increase in freight rates.

A ONE-BOOK COURSE

Governor Marshall Wins His Contention Regarding Geographies.

Indianapolis, June 7.—The state board of education decided to reject all bids for supplying geographies to the public schools of the state, and placed itself on record as favoring a one-book course in geography, instead of a two-book course. Governor Marshall had made a fight for the adoption of a one-book course, and he offered the resolution at the meeting.

To make sure that the publishers will produce books in line with the ideas of the board, a committee was appointed to consult and advise with the geographers in the preparation of the text of the books.

The action of the board was somewhat in the nature of a surprise, for book agents and the book houses which publish geographies had been extremely busy working up sentiment in the state against the one-book course.

Still in Jail.

Dallas, Tex., June 6.—Judge Seay of the criminal court has refused bail on habeas corpus proceedings to Sergeant J. D. Manley, the Dallas national guardsman who bayoneted to death Assistant County Clerk Louis Reichenstein during the visit of President Taft to Dallas in October, 1909. Manley has been in jail ever since.

Roads Reducing Expenses.

Galveston, Tex., June 6.—Following the injunction of the federal court to prevent an advance in freight rates, orders have been issued by all the trunk lines operating in Texas to cut expenses to the minimum and to discontinue indefinitely all new construction and extensions and other improvements.

China's International Exhibition.

Shanghai, June 6.—China's first international exhibition opened at Nanking without a hitch. The rumors of probable riots there proved unfounded. There was much enthusiasm. The exhibition was crowded and many Chinese ladies were present. The first ticket sold for 10,000 taels.

Failed in Health

"My mother died six years ago," writes Miss Ruth Ward, of Jerseyville, Ill., "and left me to care for six children. I had never been strong; and this, with the shock of her death, was too much for me.

"I failed in health. I was tired all the time and did not want to go anywhere, nor care for company. I had the headache all the time and such bearing-down pains.

"A very dear friend advised me to take Cardui, as it had done her so much good, so I commenced to use it and now I am in good health."

Take CARDUI

The Woman's Tonic

Women's pains are relieved or prevented and women's strength is quickly restored, by Cardui, the woman's tonic. You yourself know best if you need it, or not.

If you do need it, do not delay, but commence to use it at once. Every day of delay, only lets you slide further down the hill.

Don't wait, then, but begin to take Cardui today, for its use, no matter how prolonged, cannot harm you and will surely do you good.

FISH COMMISSIONER TO BE NAMED THIS WEEK

Report That Z. T. Sweeney Will Remain in Office Until January 1, 1911, is Denied.

It is said that the report that State Fish and Game Commissioner Z. T. Sweeney, will remain in office until January 1, 1911, is untrue, and that Governor Marshall will appoint a successor for that office some time during the coming week. Mr. Sweeney resigned his position some time ago to become effective June 1, but the Governor has been unable to find a democrat who can successfully fill the office, and no appointment has been made.

It was stated several weeks ago that the Governor had asked Mr. Sweeney to continue in office until the right man could be found, and that he had consented to act as commissioner until the first of next week. A story from Ft. Wayne stated that Mr. Sweeney would be retained, until the legislature had acted on the suggestions that the salary should be raised, but this seems groundless as the appointment, according to Governor Marshall, will be made next week.

Ft. Wayne sportsmen are drafting a bill to make the salary of the fish and game commissioner \$3,500 per year an allowance for traveling expenses. It is claimed that the present salary of \$1,200 is too small for the many duties which must be performed by the commissioner.

LORD CURZON

Chancellor of Oxford Confers Degree Upon Col. Roosevelt.

CURZON HINTS AT A THIRD TERM COMING

Oxford's Chancellor Adds to The Roosevelt Boom.

Oxford, June 8.—When Colonel Roosevelt arrived here Vice Chancellor T. H. Warren, in his doctor's robes, met him at the station and drove him to the town hall, where the clerk introduced the visitor to the mayor. The town hall was filled with residents, who gave the colonel a very hearty reception. With the vice chancellor Colonel Roosevelt then visited Christ's church and Magdalen college, the Bodleian library and the Clarendon Press. Afterward the colonel took luncheon with the Rhodes scholars in Masonic hall, before delivering the Romanesque address. In his speech at the town hall, Colonel Roosevelt said his whole European trip was due to the invitation of Vice Chancellor Warren to deliver the Romanesque lecture at the university. His intention before receiving this invitation, he said, was to return direct to the United States from Africa.

The colonel later received the degree of D. C. L., and delivered the Romanesque lecture in the Sheldonian theater, which was packed as never before. The degree was conferred on the colonel with rather more pomp and ceremony than the similar function at Cambridge. As Mr. Roosevelt stood before Lord Curzon, the chancellor, the latter addressed three Latin hexameters to him, which, translated, were:

"Behold, vice chancellor, the promised light

Before whose coming comets turned to flight,

And all the startled mouths of seven fold Nile took fright,"

which caused a shout of laughter from the undergraduates' gallery. The undergraduates were quiet and orderly throughout and there was not the slightest attempt at fun and chaff, which are usual when a popular and well-known man is receiving an honorary degree. The presentation speech in Latin compared Mr. Roosevelt with Lincoln and Ulysses, presaging "that still a third time, most auspicious of numbers, he may be called to take the reins of government."

Beverly Growing Expectant.

Beverly, Mass., June 4.—Mrs. William H. Taft, with Helen, Charles and Robert Taft, will arrive at the summer White House on Thursday, June 23, for the summer season. It is expected that President Taft will make a flying trip to Beverly with his family in order to see that they arrive safely, after which he will return to Washington.

TERSE TELEGRAMS

The completion of the \$1,000,000 endowment fund for the American Bible Society has been announced.

Rowdies broke up a tent show at Pikeville, Ky., and fired on deputy sheriffs, killing two and wounding another.

James W. Gregg of Boston has been elected head of the grand lodge of the United States of the Independent Order of Odd Fellows.

The board of regents of the University of Michigan, it is said, has decided to ask Colonel Roosevelt to accept the presidency of the university.

Treasury officials figure out that if all the money in circulation in the United States were divided equally every man, woman and child would have \$34.59.

"My feet hurt and nobody cares for me. May God have mercy on my soul." This was the note left by Joseph Kress, a rural mail carrier, whose body was found hanging in a barn at Benetown, Ky.

Iowa, at today's primary elections, will go on record for or against the Taft administration. A full ticket will be nominated by Democrats and Republicans and selections made to contest the representation in the national house of representatives.

A FINE OUTLOOK

Former Chairman Sims's Hopeful View of the Political Situation.

[Special Correspondence.]

Indianapolis, June 4.—Fred A. Sims, former acting state chairman of Republicans, present secretary of state, and one of the most sagacious and loyal of the Republican workers in the Ninth district, is sanguine as to the outcome of the campaign of 1910 in Indiana. "The Republicans will win this year," says Mr. Sims. "So far as the Ninth district is concerned, affairs political are in much better shape than I really expected to see them in by this stage of the campaign. The result of the Ninth district congressional convention was in every way satisfactory to Republicans. We got a candidate for congress on whom we can unite most readily, heartily and cheerfully. More than that, we are united on him, and we will elect him. Nothing could be more certain than Republican success in the Ninth. That district has had its last term of Democratic congressional service for some time to come. We are in good shape to elect Republican members of the legislature, also. We have a state candidate who is a big help to the whole ticket. We are in fine shape, and we are correspondingly energetic and happy, for we see victory ahead.

"We believe that the state is going Republican all up and down the line. There is good reason for our faith. Not only are there positive reasons to be found in the things Republicans have done, but there are other positive reasons in the mistakes the Democrats have made and are making.

"While we do not wish to become over-confident, as some of the poorly informed Democrats are inclined to do thus early in the fight, at the same time we are more than merely confident, and we can tell why we are so. Take Marion county, for instance. I think most of us will say that the side that wins needs Marion county. Well, the Republicans, as it turns out, are in much better shape in Marion county than the Democrats. The county ticket is a strong one. The legislative ticket is especially good, and compares most favorably with the timber the Democrats put in the field. The significant phase of the situation in Marion county is the fact that the ticket is to have a united Republican party behind it, pushing with might and main. This means sure victory, and it means the election of a Republican legislature and the return of Senator Beveridge, a matter in which all Republicans are much interested.

"We all remember what Republicans did through organization and union in the Indianapolis city election, at a time when Democrats were entirely convinced that Democrats were due to win. It strikes me that the same union and the same organization are in the fight for the success of the Marion county ticket, and that the same hustling and political cleanliness and sound judgment will mean success at the polls once more. Of course it is highly important that Marion county shall go Republican. Therefore it is encouraging to Republicans over the state to see progress and unification in the big pivotal county of the state.

"It appears to me, so far as I have been able to observe and to judge, that matters have shaped themselves by districts in a way to give all Republicans the utmost encouragement. Take the Thirteenth district, for example, with John Moorman unitedly chosen for congress. He is unbeatable, so far as I can judge it. There is Congressman Crumpacker in the Tenth with his big lead and his popularity and service to his advantage. There is no Democratic hope of whipping him. Congressman Barnard, in the Sixth, has many advantages on the Republican side, and the added advantage of discord and a weak candidate on the Democratic side. Republicans in the Sixth are mutually interested in electing every man on the Republican ticket, and the legislative and congressional tickets, as in other districts, are bound in the same bundle.

"Up in the Eleventh district they tell us that they have solved their political problems by uniting on John L. Thompson for congress, and that they will pull across the candidates for all places on the Republican ticket. In the Second Senator Bland is ready to do his part to enlarge the Republican triumph, and his united district is full of enthusiasm and Republican resolve. We are in a fair way to win the First and Fifth, also, and they tell me that with the proper enthusiasm and harmony management, the Eighth district will wheel into the Republican line once more. The importance of victory in the Eighth is emphasized when we think of the legislative votes furnished by that set of counties. The Eighth and the Seventh, it seems to the casual observer, may be the key districts to the state in 1910. The Twelfth is preparing to unite on a strong man who will be elected to congress.

"I am like all other Republicans. I am deeply interested in seeing the party succeed this year. I never have felt a keener interest, even when I was secretary or acting chairman of the state committee. I could not be more concerned if I were on the ticket. The campaign is important. Following it comes the reapportionments by the 1911 legislature. It is necessary, in the name of fairness and Republican party future, that the legislature be not turned over to a Democratic majority. Republicans know what a Democratic majority does when it sets about re-districting the state."

TOO MUCH FOR THEM

Roman Opponents of Church Put to Rout by Rain.

Rome, June 6.—The anti-clerical demonstration planned for Sunday by the Radicals, Republicans and Socialists, was postponed. Only 200 or 300 persons assembled at the meeting place at the appointed time, owing to a pouring rain. Those who had assembled waited an hour, and as their number did not increase they decided to postpone the demonstration, after which they dispersed, drenched, and shouting "Down with the vatican," and cursing the pope.

His holiness was accused of praying for rain to prevent the demonstration. A force of troops was kept under arms, but of course their services were not needed.

A BAD SMASHUP

Fog Causes Fatal Wreck on the Monon in Northern Indiana.

Chicago, June 6.—One man was killed and a score or more injured when a Monon passenger train ran into a freight near Shelby, Ind., about fifty miles out of Chicago, Sunday afternoon. The man killed was the flagman of the freight, who was standing on the main track and did not see the approaching passenger on account of a dense fog. Among the passengers injured were several racing men from Louisville, who were coming to Chicago to spend Sunday with their families and friends.

Held on Heinous Charge.

Evansville, Ind., June 8.—John Settle, owner of a notion store, is under arrest here on the charge of assaulting Frances Rupert, aged four. Settle lives alone in the rear of his store, and he is alleged to have enticed the child into his apartments. The little girl is badly hurt. A lynching was narrowly averted when Settle was taken into custody. Settle has a wife living in Madisonville, Ky.

first, because it is a necessity—that is the rule in magazine buying of America's intellectual aristocracy. It is indispensable to the busy business man, who must keep abreast of the times, because it gives him the real news of the day in concise, readable form; it is invaluable to the thinking man, who demands only the truth and then draws his own conclusions, because it gives him just plain, straight facts. It is helpful to the whole family. In it you will find a monthly picture

of men and affairs by Dr. Albert Shaw, in his comprehensive editorial, "Progress of the World;" a clever cartoon history of the month; book reviews; the gist of the best which has appeared in the other magazines and newspapers of the world; pithy character sketches; and interesting articles on the all-important topics of the day. Authoritative, non-partisan, timely and very much to the point, "it's a liberal education," is the way subscribers express it.

R. L. Robertson and family of Brownstown were the guests of Alvin Vincent and family Sunday.

Wm. Andres whose sickness has been mentioned in these columns many times, passed away Wednesday, June 1, 1910, at the age of 58 years, after an illness of several years of lung trouble. He was confined to his bed for fifteen months. He bore his sickness patiently and welcomed the end as he had lived a devoted Christian life, having joined the German Lutheran church over 30 years ago, where he has been organist 28 years.

Wm. Andres was born in Germany and came to New York at the age of 17 where he resided about one year. He then moved here where he has spent the remainder of his life. His occupation was a wagon maker. October 1, 1876 he was married to Mrs. Christina Richter, of Indianapolis, and Miss Clara, of this place and a host of relatives are left to mourn his departure. His funeral was preached at the German Lutheran cemetery Friday by Rev. Kaiser, interment in the Lutheran cemetery at this place. In Brother Andres we have lost a good friend and neighbor but we feel our loss is God's gain.

Isaac White, of Enfield, who has been visiting his step-daughter, Mrs. Ruth Schaefer, returned home Wednesday.

On Tuesday, May 31, the relatives and acquaintances of Mrs. Fannie Quigley were shocked to hear of the sudden death at the home of her mother, Mrs. Nancy Goforth, near Omaha, Ill. Mrs. Quigley was the daughter of Daniel R. and Nancy Smith, and was a little less than thirty years of age at the time of her death.

For the past three years her home had been in Paragould, Ark., from which place she had come only a few days previous to her death, to visit relatives.

Her husband, Samuel Quigley, was summoned by telegram from Paragould, where he is employed as city mail carrier. The remains were laid to rest in the cemetery at Omaha, the vast concourse of sorrowing friends and relatives attending to the high esteem in which she was held. She leaves a husband and a daughter, the latter ten years of age, her son, Freddie, having preceded her to the other world some few years ago. She was apparently in the best of health up to the time of her death, which was the result of heart failure. She, early in life, united with the New Hope German Baptist church and remained a faithful Christian until called to her reward.

LIKE AN ARSENAL

B. & O. Shops at Washington, Ind., Present Such an Appearance.

Washington, Ind., June 7.—Uniformed guards from Baltimore have arrived here to protect the machinists employed by the Baltimore & Ohio Southwestern railroad, and the shops today present the appearance of an arsenal, so many heavily armed men are on guard and so many stands of arms are stacked about the place.

The strikers have become very aggressive under the apparent ease with which the company has secured men to take their places, and have attacked and severely beaten the strike breakers whenever they appear outside the shops. One of the strike breakers was assaulted by four unknown men and was so severely injured that he had to be taken to a hospital.

The Case of the Markers.

Tipton, Ind., June 7.—H. C. Sheridan, referee in bankruptcy, has called a meeting of creditors in the proceeding against the Marker brothers, William and Noah, for next Tuesday, June 14, when trustees will be selected for the settlement of claims against the estate.

REVIVED LOVE OF OTHER DAYS

War Time Romance Has Just Reached Culmination.

SOMETHING LIKE ENOCH ARDEN

Indiana Soldier Boy Left Girl Behind Him When He Went Away to War—Upon Report of His Death She Married—He Later Returned and Then Departed Heartbroken, but Later Married—They Renew Old Troth.

South Bend, Ind., June 9.—Sweethearts of fifty years ago were united in the marriage of Mrs. Jane Briden, aged seventy, of Osceola, and George Jones, aged seventy-two, of Portland, Ore., at the Osceola home of the bride, last evening. The romantic story of the lovers of a half century ago is like and unlike that of Enoch Arden. The story which has its climax at Osceola is unlike that of old, in that the present day Enoch wins in the last lap.

Before the civil war both lived in Bunker Hill, Ind., and it was in Miami county that the early chapters of the story were enacted. They were engaged to be married when the war broke out. Young Jones enlisted and served throughout the war. He was wounded in the battle of Lookout Mountain and word finally reached the waiting sweetheart that he had been killed. Mourning her lover for dead, the long days lengthened into months, finally the wounded affections healed and she married Mr. Briden.

At the close of the war Jones, like Enoch Arden, returned, only to find the sweetheart of old married, and like Arden, he disappeared. Heartbroken, he went west. Finally he, too, married and became the father of a large family. The years went swiftly by and his wife died. In the meantime Mr. Briden had died.

Through mutual friends the sweethearts of years ago were reintroduced, and they kept up a correspondence. Mr. Jones finally made the trip from Portland to Osceola and announcement of the engagement followed. The old troth was renewed. The marriage last evening is the result.

NOT A SUCCESS

Correspondence School Farmer Fails to Make a Hit.

Hammond, Ind., June 9.—Victor Molander, a former clerk, took a correspondence course in horticulture and was engaged by John Nelson of Clark station, a truck farmer, as gardener. Nelson turned Molander loose in a big tomato and potato patch as a starter, to hoe out weeds. At the close of the day Nelson inspected Molander's work. Nelson says he found that the man had cut all the tomato and potato plants in a two-acre patch and had tenderly cared for burdock, mustard and other weeds.

Nelson says the next gardener he engages must have a certificate from the school of experience. He will have no more applicants whose knowledge of tomatoes and potatoes was gained from correspondence or the dinner table.

ATTRACTIVE PROGRAM

Indianapolis Aviation Meet Promises Much of Interest.

Indianapolis, June 9.—The program for the national aviation meet which opens here on Monday, has been completed and includes almost every kind of competition for aeroplanes. There will be special match races, special open events, handicaps, events around complete circuits of the course and special events for amateurs. Prizes will be offered for the machine starting the shortest running distance, for the start with the shortest distance before flight regardless of method of rising in the air, and for the machine making a complete circuit of the speedway track nearest the ground. Also prizes will be awarded the aeroplane making the fastest lap of the speedway regardless of height, and for the bird man making the fastest ten miles.

An Unparalleled Verdict.

Hammond, Ind., June 9.—George Parker, who a month ago shot and killed Mrs. Peter Palen, one of his tenants, in her home, was acquitted in the Lake county superior court. The defense introduced evidence to show that Parker was irresponsible because he had been drinking. Parker also pleaded insanity. The verdict is unparalleled in the history of the northern Indiana courts.

The Troubles of Twins.

Muncie, Ind., June 9.—Because George and James Western, twins, look so much alike that even relatives are not always able to tell them apart, George was arraigned in city court on a charge of stealing a wagon which he says was taken by his brother James. The court ordered George released while an investigation is being made.

Stepped Off Moving Car.

Evansville, Ind., June 9.—William Curtley, aged forty-six, living at Curtley, Ky., stepped off a rapidly moving streetcar here in an effort to recover his hat, which blew off. He fell headlong to the ground and fractured his skull, and will probably die.

ACTIVITIES OF COUNTRY CLUB INTEREST MEMBERS

Many Business and Professional Men Taking Part in the Golf and Tennis Tournaments.

Much interest is being shown in the activities of the Seymour Country Club this season, and a large number of the members are becoming daily visitors at the golf links and tennis courts. The officers of the club have taken an especial pride in the grounds this year and have endeavored to keep them in the best possible condition. An expert golf player visited the course a short time ago and declared that it was one of the best in southern Indiana, and with the excellent manner in which it was maintained in a few years would be second to none in the state.

Several tourneys have been arranged for the season in both golf and tennis. The first golf tournament, which was won by Cyril Charles in the final game on Decoration Day, proved exceedingly interesting to the large number of contestants who were entered. A second series of games will probably be arranged in a short time in which a large number of players will contest. The tennis courts are also in good condition and several match games will be arranged for the tennis games. Several of the members of the club reside in Columbus but are active in the tournaments and match games which have been scheduled.

Much attention has been given to the social feature of the club, and several delightful social functions have been given this spring.

Look Prosperous.

Even though you may not be prosperous, adopt as far as possible the appearance of prosperity. It is sound capital and will bring good interest in the long run. Shabby looking people, you may have noticed, always appear apologetic and can easily be turned down when they are most in need of a helping hand. Do not confuse apparent prosperity with extravagance. Small but telling home economies can be practiced in order to hide from the public the fact that the wolf is at the door. Keep a brave front. Dame Fortune likes to throw her magic cloak about the shoulders of the man or woman who looks capable of making the best of it.

The Canary's Claws.

If you have a canary or other cage bird look to its claws from time to time, for in a state of captivity the bird's nails grow so long that they need cutting. If this be neglected the bird is in danger of getting its nails caught in the cage and hanging there till it dies. Use a sharp pair of nail scissors and take care not to cut more than just the tips of the nails. If you hold the bird in a good light you will see a little red "thread" in each nail. This you must avoid, or you will draw blood and hurt your little pet.

Mrs. Frank Woodmansee, of Indianapolis, who is spending a few weeks here with relatives, and Mrs. R. R. Short, of Redding township, went to Brownstown this morning to spend the day.

THE JOYS WE MISS.

How small a portion of our life it is that we really enjoy! In youth we are looking forward to things that are to come; in old age we are looking backward to things that are gone past; in manhood, although we appear indeed to be more occupied in things that are present, yet even that is too often absorbed in vague determinations to be vastly happy on some future day when we have time.—Colton.

FREE GIVEN AWAY BESS

An Arizona Burro, gentle and well broken to saddle and cart. Can be safely trusted with any child. Look for her. You will see her on our streets every day. Some one will get this pet, **ABSOLUTELY FREE**, August 15th. Come in and let us explain our plan. It costs you nothing.

County commissioner Matt Fleetwood was unable to attend the regular session of the commissioners' court on account of sickness.

Mrs. Lawrence A. Ebner entertained the Bi-Weekly Club Wednesday afternoon at their home at the corner of Fourth and Walnut streets.

The veterans of the Spanish-American War at Columbus have organized a camp of the United Spanish-American War Veterans. The camp was named Jules C. Ord Camp in honor of Lieutenant Ord, who was killed at the battle of San Juan Hill. J. R. Everroad has been elected commander.

The ladies of the Federated Clubs of Bedford have requested the mayor and council to take some action regarding the manner in which the Fourth of July shall be celebrated. The city attorney has been asked to prepare an ordinance prohibiting the sale of toy pistols and fire crackers, but it is thought no action will be taken before the Fourth.

A remonstrance has been filed by the temperance people at Georgetown, in Floyd county, which it is claimed contains the names of a majority of the legal voters in the township. Floyd county voted "wet" at the recent local option election but the citizens of Georgetown seem dissatisfied with the result of the election and are taking advantage of the Moore remonstrance law to avoid the necessity of returning to the licensed saloon.

Ewing Shields, of this city, is the lowest bidder for the improvement of Sixteenth street at Bedford. The street will be paved with brick. Mr. Shields bid on three different kinds of brick, the lowest being on Medora block, at \$3.98 per foot. The contract will be awarded within the next ten days. Several blocks have been

improved at Bedford recently, much of the work having been done by Mr. Shields.

James Honan, Sr., returned to Brownstown this morning where he is serving as a member of the county board of review.

Frank B. Shields, who has been visiting his parents, Dr. and Mrs. J. M. Shields for a few days, left this afternoon for Bristol, Va., to continue his work.

Miss Trimble, secretary of the Tudor Hall school at Indianapolis, returned there yesterday after being here a day or two visiting prospective students for the school.

Automobile dealers say there will be but little improvement in the 1911 cars over 1910 models as the auto is now reaching perfection and the manufacturers are confining themselves to improving on the material and simplicity rather than the general outline and ornamentation of the machines.

Dr. S. W. Shields, of Brownstown, was here this morning returning from Indianapolis where he attended the commencement exercises of the Indiana Dental College Wednesday evening. His son, Scott W. Shields, was a member of the graduating class. His daughter, Miss Jewell, who has been in Indianapolis the past week visiting Miss Mary Falk, returned home with her father this morning.

A few days ago a half-grown opossum was captured on West Second street not a half square from the library. However, there seems to be some explanation for this unusual occurrence as some one is reported to have been driving through the city Sunday with two or three live opossums in the back of the buggy. Later one of these was missing and it is supposed that his opossumship, aroused from temporary slumber, in an unguarded moment, and making his escape, started out to explore the city.

Black Cross Chivalry

Two knights for a lady's hand once sought,
While one was rich the other had naught,
The lady herself put them both to the test,
By asking what drink in the land was best,
To the one choosing only the BLACK CROSS BRAND,
She gave her true promise and also her hand.
